

Need Answers Fast?

Combine Our Robust Database and QuickPulse Platform For a Powerful 1-2 Punch.

1 Our database delivers on three key attributes: accuracy, scope and targeting, offering a strong competitive advantage to clients.

2 Our QuickPulse platform is intended for brief, univariate online surveys. Projects can go live in 24 hours with full results available within 2 to 4 days.

Ophthalmology Study

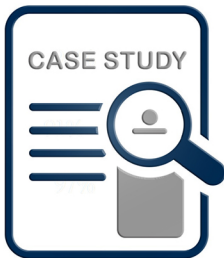

20 minute survey

200 Ophthalmologists and Optometrists

4 day turnaround from program, launch to results

Lung Cancer Study

3 unique 7 minute surveys

300 Oncologists (100 per survey)

3 day turnaround from program, launch to results

Contact Olson Research to put our Database and QuickPulse platform to work for you.
